

Incentive Compensation Planning

With Anaplan for Incentive Compensation Planning, sales leaders and compensation professionals can plan, model, and optimize incentive compensation plans that drive the right sales behaviors. Align sales compensation with corporate goals, market strategy, and revenue expectations, and ensure accurate calculations of compensation based on comp plans and crediting. Develop “what-if” scenarios of incentive compensation structures, and analyze sales performance outcomes and business impact in real time. Quickly adjust plans to keep comp plans in sync with overall business goals and targets.

Model multiple incentive compensation plans and “what-if” scenarios. Ensure that you are designing the right incentive compensation plans that motivate and drive the right sales behaviors before communicating and rolling them out to the sales team.

Optimize incentive compensation plans and adapt quickly when changes occur. Monitor and optimize incentive compensation plans to reduce overpayments, adjust for outliers, analyze trends, and adapt quickly when changes occur. Reveal sales reps that are “gaming the plan” and evaluate the effectiveness of the incentive compensation plans in real time.

Calculate incentive compensation in real time. Incentive compensation is calculated in real-time seconds— not days or hours. Provide immediate visibility into sales performance and KPIs across the organization, including Sales, Finance, and HR.

Key Features

Plan, model, and optimize incentive compensation plans

Plan and model multiple “what-if” scenarios so you can continuously optimize incentive compensation plans and align sales behaviors with corporate goals and sales strategy.

Effective date incentive compensation plans, components, and measures

Maintain historical information and changes to incentive compensation plans, components, and measures, allowing you to be flexible and adaptable when changes occur and you wish to drive different sales behaviors.

Build incentive compensation calculations with familiar formulas

Apply easy-to-use, Excel®-like formula builder to configure incentive compensation rules.

Optimize workflow for incentive compensation and sales performance processes

Configure workflow and routing to support incentive compensation and sales performance processes, such as compensation agreement approvals, manual adjustments, and commission splits.

Compute high-performance calculations

Calculate incentive compensation earnings, including commissions, bonuses, draws, and adjustments.

Calculate sales performance KPIs, such as year-to-date quota attainment, month-over-month growth, monthly/YTD revenue or bookings, and peer rankings.

Summarize and detail compensation statements

Deliver personalized incentive compensation statements that provide summary payout information down to the detailed transactions level.

“What-if” scenario modeling and analysis Create “what-if” scenarios and modeling to analyze the impact to the sales forecast if a specific business, economic, or competitive situation were to occur. Prepare for challenges that you could encounter in your upcoming deal cycles.

Support data integration (import and export)

Integrate with any upstream or downstream system using a pre-built connector to Salesforce, third-party connectors (e.g. Mulesoft, Dell Boomi, SnapLogic, and Informatica) or self-service import and export with Excel.

Enable MS Office integration

Integrate with Microsoft Office™ Excel®, Word®, and PowerPoint® to provide productivity and efficiency when delivering presentations or reviewing sales performance metrics in sales meetings.

Analyze performance with data visualization Built-in dashboards, reporting, and analytics with data visualization (charts, graphs, maps, etc.). Dashboards and reports are updated immediately. Analyze incentive compensation and sales performance metrics to make better decisions with actionable insights.

Implement top security with reduced IT costs

Single, continuously monitored multi-tenant cloud platform and infrastructure. Role-based security, user management, and single sign-on support. Disaster recovery and full data encryption.

Reference and analyze historical data

Maintain history of incentive compensation plans, components, measures, and assignments through effective dating, versions, and audit tracking.

Anaplan for Sales end-to-end solution integration

Upstream integration with Anaplan’s Territory and Quota Planning app. Incentive compensation payout results can be formatted and exported for finance and payroll systems.
